Phone script to call your MP

Israel violates ceasefire and slaughters Palestinians in the West Bank

[Find MP's number](#)

Introduce yourself

"Hi there, my name is _____ and I am a constituent of _____ electorate. I'm calling as I've got a request that I'd like you to pass on to my MP _____."

Explain what you're calling about, and how it makes you feel

"I'm calling today because I'm really horrified and angered by Israel's ongoing violations of international law. Israel is breaching the ceasefire, it has just killed a Palestinian child in Rafah and then shot at another person trying to help the injured child.

Israel is continuing its violence in the West Bank, deploying Apache helicopters to target and terrorise Palestinians, massacring men, women and children. There are raids happening in Jenin, and illegal settlers are attacking Palestinian communities with the full backing of the Israeli military.

Israel has arrested 64 Palestinians – even as it releases Palestinian hostages as part of the ceasefire deal.

"It is outrageous that Australia is remaining silent while Israel blatantly commits war crimes and breaches the ceasefire agreement. This silence and inaction is not only unjust – it makes the Australian government complicit."

Explain what you want to see happen

"Australia needs to immediately and unequivocally condemn Israel's attacks and take concrete measures to end all direct and indirect support of Israel. This means:

- Suspending all trade and diplomatic relations with Israel.
- Implementing targeted sanctions against Israeli officials and entities responsible for war crimes.
- Imposing a two-way arms embargo.
- Joining international efforts to hold Israel accountable for its genocide, apartheid, and occupation.

"By taking these urgently needed actions, Australia would uphold its international obligations and my expectations that it is a responsible, moral country that values human rights, international law and justice."

Make your ask

"I would like to ask that you take note of my message and ask MP _____ to pass this message onto the Foreign Minister on my behalf, immediately."

"I will follow this phone call up with an email so that you have my ask in writing."

"I would also like for MP _____ to respond to my request, and also let me know once the Foreign Minister has replied."

Issue your ultimatum

"I will not stand by while Australia is complicit in Israel's apartheid and illegal occupation of Palestine. This is a matter of international law and fundamental human rights, and it will absolutely determine how I vote at the next election."
